Most important and the most unique factor was the 1:1 meetings, if you do the calculation on cost per meeting, it's the best value for money you can find.

Thank you for organization of the Wolves Summit. It exceeded my expectations, great job! The quality of companies is pretty impressive! I would not have expected that many UK and other international companies.

There are plenty of experienced business executives that can partner up with agile startups and build a better future for both parties. Conferences like Wolves Summit are crucial because of the meeting spots - that's how the talks start if you're looking for innovation.
